**Mr. Shelor** said "Work out to get stronger and be more healthy -get better at eating healthy".

## FACTS TO KNOW

1.) The Ball that drops in New York City's Times Square each year weighs nearly 12,000 pounds. It's covered in about 2,700 crystal triangles, according to the Times Square website.

2.) Speaking of dedication, about half of Americans will make New Year's resolutions promising to change something about themselves in 2016. The most popular resolutions last year were to "stay fit and healthy," "lose weight" and "enjoy life to the fullest," according to Nielsen. About 16 percent of Americans said they resolved not to make any resolutions.

3.) About 75 percent of people keep their resolutions through the first week of the year, but only 46 percent keep it up for six months. Only about 8 percent of people keep their resolutions all year long, according to statisticbrain.com. More people in their 20s keep their resolutions than people older than 50.

4.) On New Year's Day in Ireland, residents hit loaves of bread against the walls of their homes in order to scare away any bad spirits, according to boston.com. Some people in Latin America believe it's good luck to wear red underwear on New Year's Eve. Yellow works, too.

## SO THEY SAY

The new year stands before us, like a chapter in a book, waiting to be written. We can help write that story by setting goals.

**-Melody Beattie**

Year's end is neither an end nor a beginning but a going on, with all the wisdom that experience can instill in us.

**-Hal Borland**

Make New Year's goals. Dig within, and discover what you would like to have happen in your life this year. This helps you do your part. It is an affirmation that you're interested in fully living life in the year to come.

**-Melody Beattie**

Resolution One: I will live for God. Resolution Two: If no one else does, I still will.

**-Jonathan Edwards**

Write it on your heart that every day is the best day in the year.

**-Ralph Waldo Emerson**
